

SILICONE EARPIECE INSTRUCTIONS

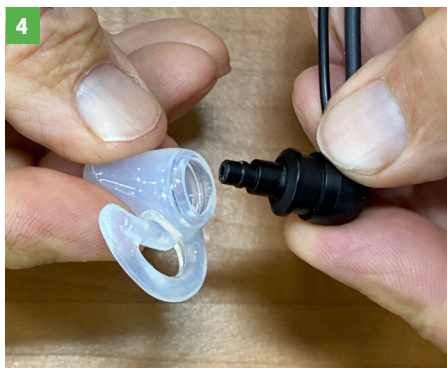

Here are simple instructions of removing the existing earpiece and replacing it with the silicone earpiece.

Start by simply pulling the provided black earpiece off the headset.

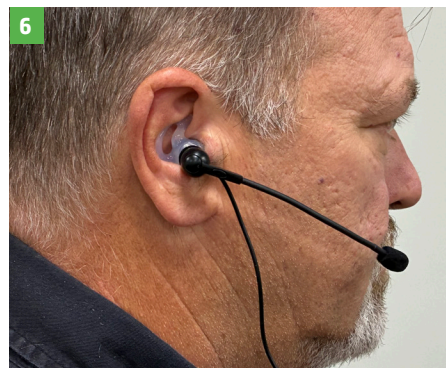

Next gently pop off the Ear Hook.

Now push the Silicone Earpiece on the headset.

Some adjustment may be required by turning it to properly fit your ear.

Gently place the Silicone Earpiece into your ear. Adjust the mic boom to be positioned close to your mouth.
